Günther, Manuel; Böhringer, Stefan; Wieczorek, Dagmar; Würtz, Rolf P.  
Reconstruction of images from Gabor graphs with applications in facial image processing.  
(English) Zbl 1341.68176  

MSC:  
68T10 Pattern recognition, speech recognition  
68U10 Computing methodologies for image processing  
92C55 Biomedical imaging and signal processing  
94A08 Image processing (compression, reconstruction, etc.) in information and communication theory  

Keywords:  
face recognition; Gabor wavelets; reconstruction; caricature; average face; syndrome classification
