

Kapovich, Ilya; Pfaff, Catherine

A train track directed random walk on $\text{Out}(F_r)$. (English) Zbl 1351.20025

Int. J. Algebra Comput. 25, No. 5, 745-798 (2015).

MSC:

20F65 Geometric group theory
20E05 Free nonabelian groups
20E36 Automorphisms of infinite groups
20F28 Automorphism groups of groups
20P05 Probabilistic methods in group theory
60G50 Sums of independent random variables; random walks

Cited in **1** Review
Cited in **5** Documents

Keywords:

fully irreducible automorphisms; free group automorphisms; train track maps; random walks; index theory; outer space; Cayley graphs

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
