

Mengi, Emre

A support function based algorithm for optimization with eigenvalue constraints. (English)

[Zbl 1359.65094](#)

SIAM J. Optim. 27, No. 1, 246-268 (2017).

MSC:

65K05 Numerical mathematical programming methods

90C26 Nonconvex programming, global optimization

Cited in **2** Documents

Keywords:

nonsmooth optimization; analytical properties of eigenvalues; support functions; Karush-Kuhn-Tucker conditions; fixed point theory; pseudospectra; local convergence; algorithm; Hermitian matrices

Software:

PSAPSR; Eigtool

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
