Andrei Yurievich Khrennikov and his research. (English) [Zbl 1420.81005](#)

p-Adic Numbers Ultrametric Anal. Appl. 10, No. 4, 344-347 (2018).

Summary: This paper contains a brief review of a very diverse and vast scientific work of Andrei Yurievich Khrennikov on the occasion of his 60th birthday.

MSC:

81P05 General and philosophical questions in quantum theory

60A10 Probabilistic measure theory

12H25 *p*-adic differential equations

00A79 Physics

01A70 Biographies, obituaries, personalia, bibliographies

Keywords:

Andrei Yu. Khrennikov; *p*-adic and ultrametric analysis; superanalysis; mathematical models; *p*-adic dynamical models; probability theory; foundations of quantum mechanics; quantum-like models; *p*-adic modeling of cognitive and biological processes

Biographic references:

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
