

Cirulis, Jānis

Lattice of closure endomorphisms of a Hilbert algebra. (English) Zbl 1437.03183
Asian-Eur. J. Math. 12, No. 5, Article ID 1950082, 16 p. (2019).

MSC:

03G25 Other algebras related to logic
06A15 Galois correspondences, closure operators (in relation to ordered sets)
06F35 BCK-algebras, BCI-algebras
08A35 Automorphisms and endomorphisms of algebraic structures

Cited in 1 Document

Keywords:

adjoint semilattice; closure endomorphism; closure retract; Hilbert algebra; implication algebra; comonomial filter

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
