

Bermudez, David; Leonhardt, Ulf

Resonant Hawking radiation as an instability. (English) Zbl 1475.83054
Classical Quantum Gravity 36, No. 2, Article ID 024001, 15 p. (2019).

MSC:

83C57 Black holes
78A60 Lasers, masers, optical bistability, nonlinear optics
76E20 Stability and instability of geophysical and astrophysical flows
81V73 Bosonic systems in quantum theory
82B26 Phase transitions (general) in equilibrium statistical mechanics
81U26 Tunneling in quantum theory

Cited in 1 Document

Keywords:

theory of instabilities; analogue gravity; Hawking radiation; Bogoliubov-de Gennes equation; black hole laser

Full Text: [DOI](#) [arXiv](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
